How do I get a Nationally Coordinated Criminal History Check?

Fast, secure, and completely online with Worker Checks.

Getting your **Nationally Coordinated Criminal History Check (NCCHC)** is quick and completely online with Worker Checks — an **ACIC-accredited provider**. You can apply from your phone in about ten minutes.

80%of results returned within 1–3 minutes
Apply online for your $52.00 check ›

How it works

The whole application takes about ten minutes. You'll need your mobile phone and three identity documents.

1

Pay online

Securely pay **$52.00** by credit card through our encrypted payment gateway. You'll receive an email confirming your order, with a link to sign up.

2

Sign up and click Action

Create your CheckHub account using **the same mobile number you used to pay**. This links your order to your account. Then click the **Action** button next to your check.

3

Verify your identity on your phone

You'll see which ID you need: **three documents, one from each group** (see accepted ID). Click **Start application** and we'll text a link to your phone. Then:

- take a selfie, which is matched to the photo on your ID
- photograph your first document live — the real card or passport
- photograph or upload your other two documents

4

Complete your details and submit

You'll go back to your application, with most details already filled in from your ID. Check them, then add:

- the **reason for your check**, including position title and employer
- any **previous names** and your **addresses for the last 5 years**

Review your answers, agree to the consent and submit.

5

Receive your result

About 80% of results are returned within 1–3 minutes. The rest are referred for manual review by police, which can take longer, sometimes several weeks. We'll notify you by email and SMS as soon as your result is ready.

From your CheckHub, you can download your certificate as a PDF or share it electronically with employers and agencies.
